NOTES

¹ 2 Rifles relieved 1 Coldstream Guards as the Kabul Support Unit in August 2014. Their exact chain of command is unclear.

² 2-162 relieved 48th BCT in early September 2014. See 48th BCT Facebook page.

³ Established in the summer of 2012, SOJTF-A/NSOCC-A is a two-star headquarters that oversees all three allied SOF commands in Afghanistan: CJSOTF-A, ISAF SOF, and the “black” special operations forces of the U.S. Joint Special Operations Command task force (not included on this order of battle). See USSOCOM Fact Book 2013. Maj. Gen. Reeder took command of SOJTF-A in June 2014.

⁴ CJSOTF-A is headquartered by troops from the 3rd Special Forces Group. Its core tasks are to advise the Afghan National Army’s special operations forces (the Afghan commando kandaks and Special Forces) and to train and advise the local police forces associated with the Village Stability Operations program. CJSOTF-A controls six battalion-level task forces: two built around Army Special Forces battalions, two around Army infantry battalions, one around a Marine special operations battalion, and one around a Navy SEAL team. Navy Combat Camera Command Detachment 1210, “CJSOTF-A Presentation,” June 2012.

⁵ Established in 2007, ISAF SOF is a one-star, brigade-level headquarters that oversees most non-U.S. special operations forces in Afghanistan as well as one U.S. special operations unit, TF 10. Command of ISAF SOF appears to rotate between British and Australian officers; Brig. Mark Smethurst was in command as of March 2012.

⁶ The ISAF SOTGs, some battalion-level and some company-level, support the various regional commands, often by advising elite Afghan Interior Ministry units like the Provincial Response Companies, the Kabul-based Crisis Response Unit, and TF 333 and TF 444, and are designated as numbered task forces. For example, press reports mention TF 10 (a company from the U.S. 10th Special Forces Group) in RC-Capital; TF 45 (Italian SOF) in RC-West; TF 47 (German SOF) in RC-North; TF 49 and TF 50 (Polish SOF) in Ghazni and other areas in RC-East; TF 42, TF 196, and TF 528 (British SOF) in Helmand; and TF 66 (Australian SOF) in Uruzgan and Kandahar. (Units that have since withdrawn included France’s TF 32 and the Netherlands’ TF 637.)

⁷ CJSOAC-A is composed of helicopter, fixed-wing, and unmanned aviation units from the U.S. Air Force Special Operations Command, the 160th Special Operations Aviation Regiment, and conventional U.S. Army aviation units.

⁸ 9th AETF-A does not fall under ISAF command, but its commander is dual-hatted as Deputy Commander (Air) of USFOR-A. It exercises only partial control of the wings and squadrons below it; day-to-day tactical control of those units is exercised by U.S. Air Force Central’s Combined Air and Space Operations Center in the Persian Gulf.
